

OPERATIONAL ENERGY GROUP INDIA LIMITED CSR PROJECTS/PROGRAMS APPROVED BY THE BOARD FOR FINANCIAL YEAR 2024-25

Operational Energy Group India Limited is deeply committed to advancing quality education, with its Corporate Social Responsibility (CSR) initiatives firmly centred on this mission. The Company established the **Yashas English School Foundation** in **2015** as its flagship CSR initiative, with the active support and funding of its promoters. The Foundation was created with the vision of delivering affordable, quality education to underprivileged and rural children, while also promoting holistic growth through academics, extracurricular activities, and cultural enrichment.

Since **2016–17**, the Company has been making sustained contributions to the Yashas English School Foundation. Over the years, the initiative has grown into a **structured and impactful programme**, now recognised as a leading educational institution in the region. The Foundation remains an extension of the Company's values, focusing on transforming communities through education rather than treating CSR as a mere compliance requirement.

Since the launch of its CSR activities, the Company has consistently supported the Yashas English School Foundation. What began as a modest contribution has steadily expanded in scope and scale, keeping pace with the institution's growth and the rising educational needs of the community. The Company has often gone beyond its statutory obligations, ensuring uninterrupted funding even during challenging times such as the pandemic. In recent years, allocations have further increased, reflecting the maturity of the Foundation's programmes and the Company's enduring belief that education is the most powerful tool for community transformation.

The school places strong emphasis on the holistic development of every child, ensuring that learning goes beyond academics. From the early years, students are encouraged to participate in activities such as classical dance, mridangam (a traditional percussion instrument), skating, and sports, which form an integral part of the curriculum. These programmes are designed to nurture creativity, physical fitness, discipline, and cultural appreciation, thereby enriching the overall educational experience. By integrating academics with arts and physical education, the school provides an environment where children develop confidence, teamwork, and well-rounded personalities.

Academic Achievements

The year marked a significant milestone as the school's first batch of Class X students appeared for the ICSE Board Examinations and achieved a 100% pass result. This outstanding performance reflected the school's academic standards and reputation in the region..

Growth in Enrolment and Infrastructure

The school experienced a rise in student enrolment, particularly in the lower classes, leading to the creation of additional sections. This growth has demonstrated the trust of the community in the institution's mission and ensured that more children from disadvantaged backgrounds could access affordable quality education.

Addressing Teacher Shortage through Innovation

Recognising the challenges in recruiting qualified teachers in rural areas, the school initiated innovative teaching support measures, including video lectures and subject assistance from experienced faculty based in Chennai and other urban centres. This hybrid teaching model ensured continuity of quality learning, especially in higher classes.

Holistic Development and Extracurricular Activities

Consistent with its philosophy of all-round growth, the school maintained a strong focus on extracurricular activities. Students were encouraged to participate in **sports, cultural programmes, and skill-based activities**, with the aim to enhance their confidence, teamwork, and creativity. This balanced approach adopted to ensure that education was not limited to academics but extended to personal and social development.

During Financial Year 2024–25, Operational Energy Group India Limited allocated ₹30,00,000/- towards CSR activities, against a statutory obligation of ₹28,47,982/-, with the full amount being utilised for M/s. Yashas English School Foundation, Malli Village. The Company continued its commitment to empowering underprivileged children through quality education and all-round development.
